Offered or Seeking : Offered  
Condition: New  
Title: Royal Oak Floors - Timber Flooring  
Description: Harper & Sandilands was established in 1981 to import and distribute fine quality timber picture frame moldings. The company quickly established itself as a market leader in stylish and high-quality moldings.

In 2006 the company identified a similar niche in the Australian engineered timber flooring Melbourne market and set about developing innovative and original new timber floor products and colors. Our brand is called Royal Oak Floors. We have established ourselves as the leading brand of engineered timber flooring across Australia and have also completed numerous large scale

projects throughout the world. We specialize in European Oak timber flooring but do have other beautiful timber species such as French Oak and Walnut to name a few. Recently we have added a new edition to our bow by introducing Australia to Concrete. A pre-finished polished concrete product that can be used on walls and floors. Concrete is lightweight and easy to install and fantastic as a retrofit product or on new build projects.

Price: \$ 1,000.00
